Parts List

Please unpack and inspect all packages and components carefully, and make sure they are complete. Examine for shipping damage. If some parts are damaged or missing, notify your dealer immediately.

For Installation You may Require the Following Tools

Note!

Before assembly, flush the water supply pipes thoroughly to remove debris (allow the water to run with the main stopcock open for about 3 mins), otherwise dirt particles might affect the function of the shower panel!

Back View

Measure the distance from the upper fixing hanger to the lower fixing hanger. The dimensions are for your reference only.

Dimensions

Choose a suitable place to install the shower panel, adjust the shower panel's vertical position based on the user's height and your sanitary room. Usually, install the panels at the distance of 82 3/5" from the top to the ground, but you can assemble according to your preference.

Wall-mounting

Note Before drilling any holes for fixing your shower panel ensure that there are no hidden cables or pipework within the wall.

Drill the holes in the wall

Insert the wall plugs inside the holes

Tighten the screws to the wall with wall mounting brackets

Hang the shower panel on the mounting bracket

Note! The shower panel is for indoors use only. For outdoors use please refer to the outdoors shower panel series.

Don't forget to place the Teflon Tape and rubber washer when it is necessary or it might cause water leakage.
